

2017 Missouri Chapter APWA Fall Conference

SPONSORSHIP AND EXHIBITOR OPPORTUNITIES

October 29-31, 2017

In order to keep the conference fees at a minimum, the Conference Committee is requesting sponsors to support a variety of events during the Conference.

These events are an ideal way for the private sector members to promote their products and professional services, meet and greet, network, talk shop with other members and participants in addition to the presentations and exhibitor booth visibility during the Conference. Over 150 participants are expected to attend this event.

At previous conferences, the funding for the "Get Acquainted Social", the "Monday Night Dinner Social", shuttle transportation and numerous grand prizes was subsidized by the very generous members from the private sector. This generosity allows us to keep the registration cost low in order to attract new members and increase membership participation. Additional funds can then be utilized for other events beneficial to the Chapter membership such as additional social functions, scholarships, and outreach programs.

Six events will be held in the exhibitor hall, giving exhibitors ample face time with prospective clients. In addition, we are planning on having an exhibitor signature sheet for registrants who take the time to speak with them. These sheets will then go into a drawing for a prize at the end of the conference.

Exhibitor Happy Hour

We have added an Exhibitor Happy Hour to take place from 4:00-5:30 on Monday between the conference sessions and the dinner. All participants will be encouraged to stay in the main exhibitor hall for drinks and snacks and meet with exhibitors.

The cost includes the following:

- Company name listed on program
- 1 full Attendee Registration
- 6' table and two chairs provided
- Booth space reservations ahead of time (see following page)
- Booth set up from 5:00am-8:00am on Monday 10/29/2017
- Booth tear down after 5:30pm on Monday 10/30 or Tuesday after noon.
- Limited tables available with electrical connection
