2018 MICROPAVER™ TRAINING COURSE
March 26 – 28, 2018
City of Maryland Heights, MO

Overview
A two and one-half day MicroPAVER™ Training Course will be held at the City of Maryland Heights from March 26-28, 2018. The class will be led by Scott McDonald, who provides APWA’s technical support for MicroPAVER™. The class is not a beginner’s class, but is designed for current users who want additional training in MicroPAVER™ and will not include FieldInspector™ training.

This pavement management course is designed for agencies that currently use MicroPAVER™ and want some advanced training with their own data, instead of test data supplied with a beginner’s class. The goal is to allow the training to be tailored for each user’s situation. The optional, extra one-half day will give attendees the opportunity to slow the classroom pace and spend more time with individual databases. It may also provide an opportunity to resolve problems with your agency’s data. Student manuals will be provided, as well as APWA certificates for those who need to track education hours.

The 2.5 day course using the latest release of PAVER 7™ will give attendees the ability to cover the following topics interactively:

- Inventory (Sectioning; Surface Type and Last Construction Date concerns; GIS updating)
- Work History (Best practices; Requirements)
- Inspections (Approach; ASTM standards; Distresses and deduct values; Collection options, including field exercise if needed)
- Prediction Modeling (Family grouping; Model dynamics; Assignments)
- Work Planning (Multiple scenario options; Penalty cost calculations; Analysis of outputs)
- Reporting; Data presentation; Project list formulation
- Database troubleshooting; Hosting options

Who should attend:
This course is designed for users involved in pavement management, inspection, maintenance, rehabilitation, prioritization, or budget planning, and should help you maintain your city’s pavement life and help with budget planning.
DETAILED INFORMATION

DATES

March 26 and 27, 2018 (two full days)
March 28th (optional half day) **

LOCATION

City of Maryland Heights Community Center
2300 McKelvey Road, Maryland Heights, MO 63043

** Policy regarding minimum attendance, refunds and cancellations:

The course instructor, Scott McDonald, has quoted a flat rate to hold the class. The cost of $825.00 per person is designed to cover the cost of the course and lunches for a minimum of 10 attendees. The City of Maryland Heights is donating the use of its Community Center at no additional charge to keep costs at a minimum.

The class will be held only if we receive payment for at least 10 attendees. If fewer than 10 people pay for the course, the class will be canceled and all monies refunded.

Additional participants may result in partial refunds to the agencies, as the per person cost will be reduced.

Cancellations after February 28, 2018 may not receive a full or partial refund.
