

St. Louis Branch of Missouri Chapter APWA Public Works Project of the Year Award Criteria

Purpose: The St. Louis Branch of Missouri Chapter APWA Public Works Project of the Year Award was established to promote excellence in the management and administration of public works projects by recognizing the alliance between the managing agency, the consultant/architect/engineer, and the contractor who, working together, complete public works projects.

Awards are given in two divisions:

- Projects less than \$250,000
- Projects greater than \$250,000

and five categories:

- Structures—to include public structure preservation/rehabilitation, municipal buildings, parks, etc.
- Transportation—to include roads, bridges, mass transit, etc.
- Environment—to include treatment and recycling facilities, landfill reclamation projects, sewer projects, etc.
- Historical Restoration/Preservation—to include historical restoration, preservation and adaptive reuse of existing buildings, structures, and facilities, etc.
- Disaster or Emergency Construction/Repair—to include the techniques and timing for safety, community relations, environmental protection, adverse conditions and additional considerations.

Eligibility: Public works is defined as the physical structures and facilities that are developed, owned, and maintained by public agencies to house governmental functions and provide water, power, waste disposal, transportation, and similar public services in accordance with established public policy.

To be eligible for nomination, a project must have been “substantially completed” and available for public and/or agency use within two calendar years prior to nomination. If a project has multiple phases or segments, then “substantially completed” will be construed as that point when the final phase or segment is 90% completed and available for public and/or agency use. A project may only be nominated once for recognition as “Project of the Year” under any category.

St. Louis Branch of Missouri Chapter APWA Public Works Project of the Year Award Criteria

Selection Criteria to be used in the selection process include:

- Use of good construction management techniques and completion of the project on schedule.
- Safety performance and demonstrated awareness of the need for a good overall safety program during construction.
- Community relations as evidenced by efforts to minimize public inconvenience due to construction, safety precautions to protect public lives and property, provision of observation areas, guided tours, or other means of improving relations between the agency and the public.
- Demonstrated awareness for the need to protect the environment during the project. This includes any special considerations given to particular environmental concerns raised during the course of the project.
- Unusual accomplishments under adverse conditions including, but not limited to age or condition of the facility, adverse weather, soil or other site conditions over which there is no control.
- Additional conditions deemed of importance to the public works agency, such as exceptional efforts to maintain quality control and, if value engineering is used, construction innovations as evidenced by time and/or money-saving techniques developed and/or successfully utilized.
- Use of sustainable infrastructure rating system or the equivalent (such as the Envision rating system) to ensure project is sustainable.

The Project of the Year Committee reviews the nominations and selects the award winners.

Nomination Process: Nominations of projects can be made by the managing public agency, the consultant/architect/engineer, and the contractor who, working together, complete the public works project. One of the entities must be a member of the St. Louis Branch of Missouri Chapter APWA.

Deadline: April 16, 2018 (electronic submittals only)

Presentation: The award winners are presented with a plaque at the Awards Recognition Ceremony during a St. Louis Branch of Missouri Chapter APWA monthly luncheon.
